Interfaces

There are three interfaces you will see while using PDF to Flash Brochure Pro Mac as below shows: **Import PDF**, **Template Settings**, **Edit Page** and **Output**.

You can get clear instructions for every detail option below.

➤ Import PDF Interface

1. Source PDF File

Click  icon to open the PDF file you want to convert;

Click  icon to view content of added PDF file to clarify before converting.

2. The Page Ranges to Import

 Convert all pages to page-flipping eBook;

 2-5  Example: 1,3,5,9-21 Convert defined range page.

3. Page Quality

There are five types of "Quality And Size":

4. Other Options

 If there are bookmarks in your PDF file, check this option to use in output page-flipping eBook;

 If there are links in your PDF file, check this to enable it in the flipbook.

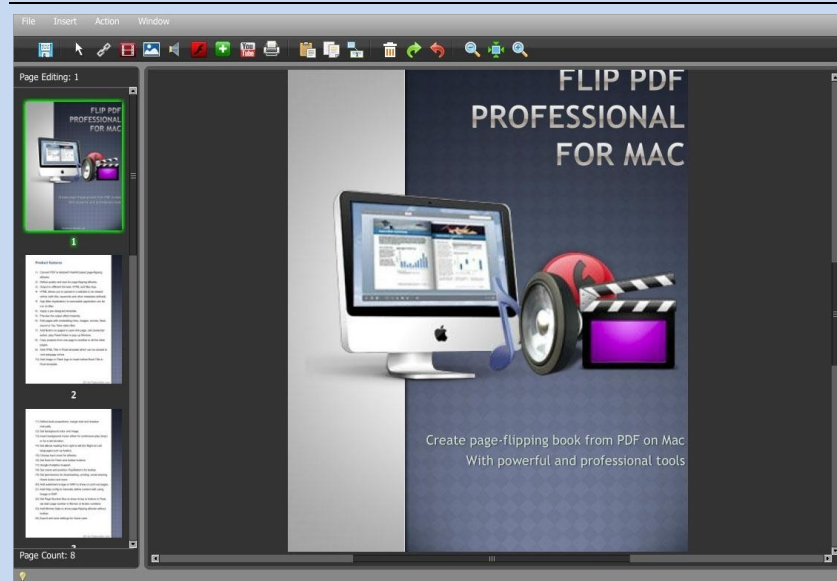

At last, click  icon to enter into template setting interface.

➤ Edit Pages

Now you can use Flip PDF Pro to edit imported pages directly, no matter you want to add link, video, sound or image file.

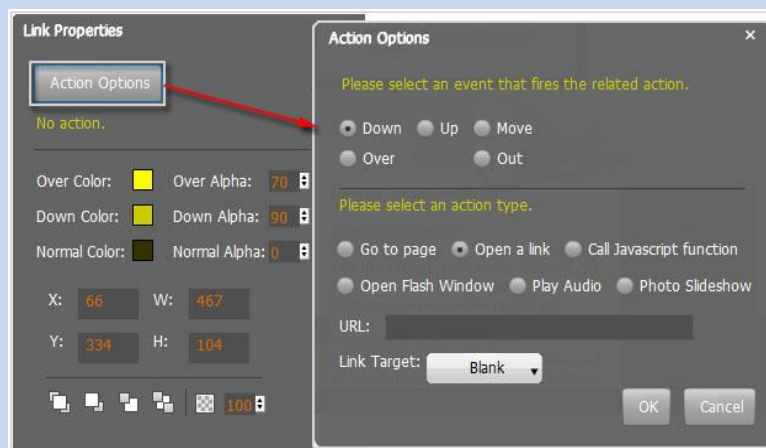

Just click "Edit Pages" button  to enter into the editing interface:

You can insert links, images, sound, movies even buttons with calling many functions to the pages as you will.

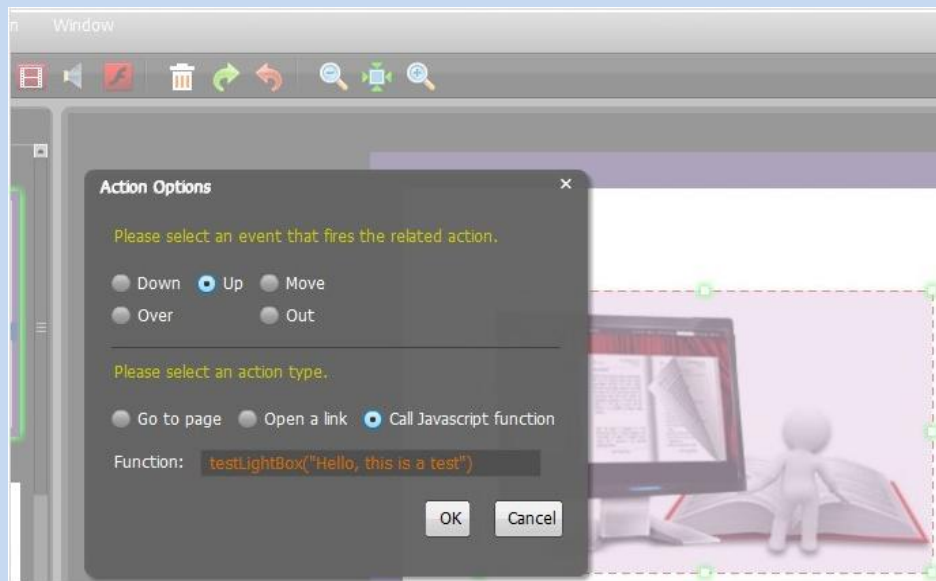

1. Add Links

Click the icon  and then draw a link box on the area you want to add link, then define properties in below panel:

You can define the link action as "Go to page", or open an online webpage, or even "Call Javascript function" to carry out your wanted interactive functionalities via defining Javascript function yourself.. For example, you can show a pop-up light box while readers clicking some image on page or pop-up a questionnaire or other Web Form by clicking some text. Just make sure the parameter you set in "Function" can be called in from HTML page.

Example: Check "Call Javascript function" as action type, then input Function as "testLightBox("Hello, this is a test")":

And then make sure the Javascript wrote into the index.html page as below image shows (the same as you set in "Link Function"):

2. Add Movie

Click icon  and then draw a box like below on the page you want to insert FLV movie:

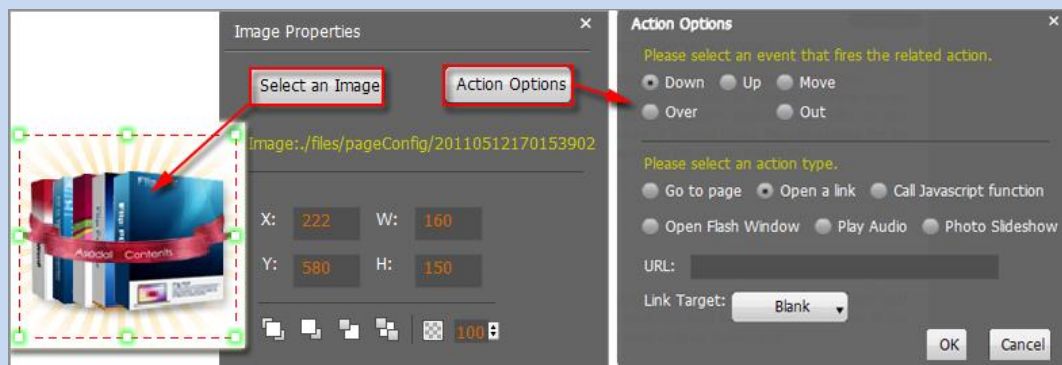

Then you can select and edit the movie in below panel (define video player skin color,

play and stop movie actions, etc.):

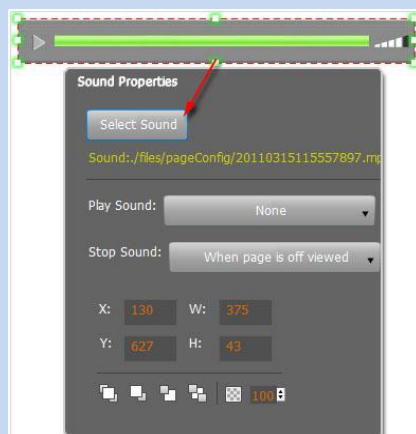

3. Add Image

Click the icon  to draw image box and then select image (.jpg, .png, .bmp), set Action Options (the same as Link Action Options):

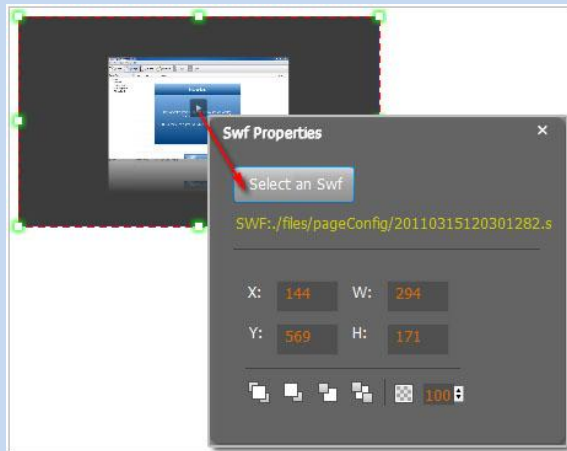

4. Add Sound

Click the icon  to draw sound box and then select sound file, set other options:

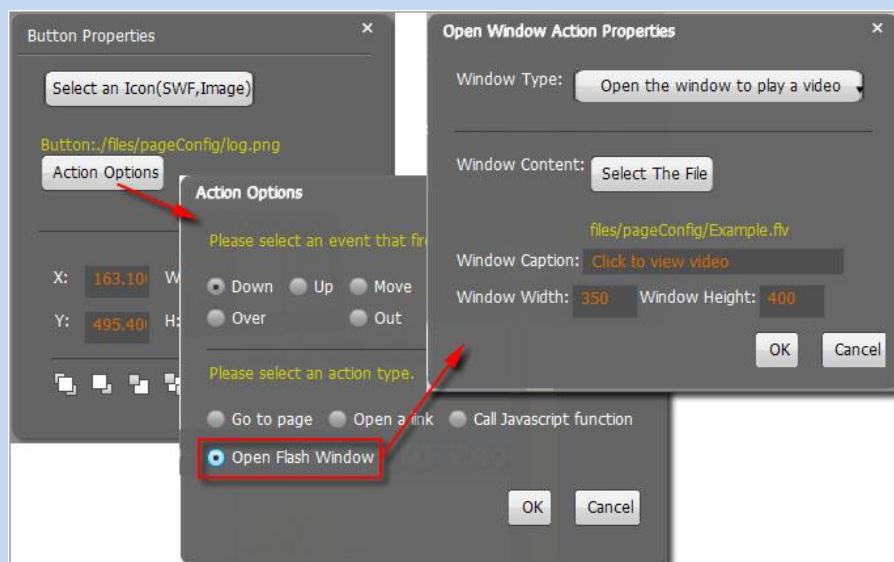

5. Add Flash

Click icon  to insert SWF flash into your defined area of flipbook page:

6. Add Button

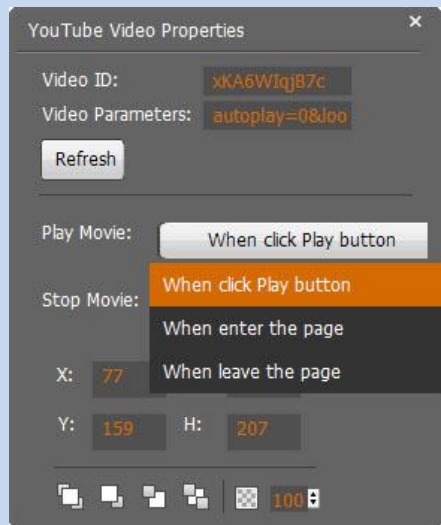

Click icon  to draw an area for inserting your image or SWF button file with calling actions. The actions contain "Go to page", "Open a link", "Call Javascript function" and "Open Flash Window". The before three actions are the same with the actions in "Add Link", the "Open Flash Window" can help you to play SWF Flash or FLV Video in the pop-up window:

7. Add You Tube Video

Click the icon  and then draw a box on the page to insert You Tube video into

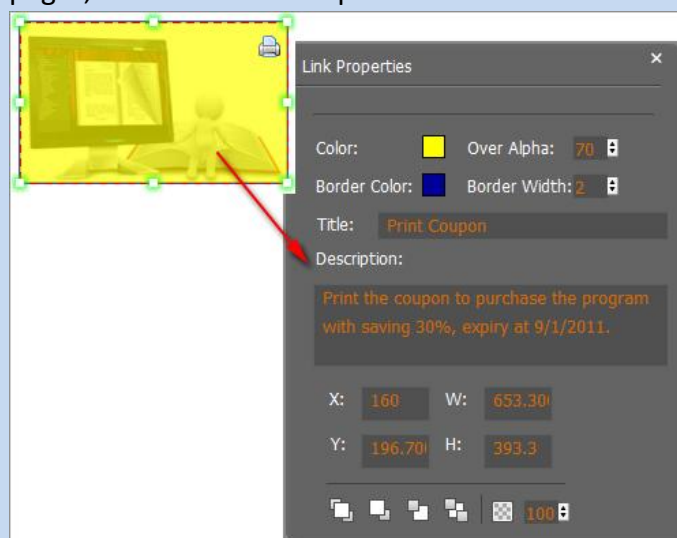

pages directly. You just need to define the video ID directly. For example the video link is: <http://www.youtube.com/watch?v=xKA6WlqjB7c>, then the video ID is "xKA6WlqjB7c".

8. Add Printable Area

If you want readers can click on some area of your book to print the area directly, such as coupons which can be used to buy your presented goods, you can add a

"Printable Area" on pages by clicking the icon , and then draw the area on the pages, set title and description:

9. Copy and Paste

If you want to add same links, images, videos, audios to different pages, you don't have to repeat the "Link/Image/Video/Audio added" operations once and once again,

just select the link object, click the copy button  and then go to the other page to

click the paste button  directly.

10. Apply All

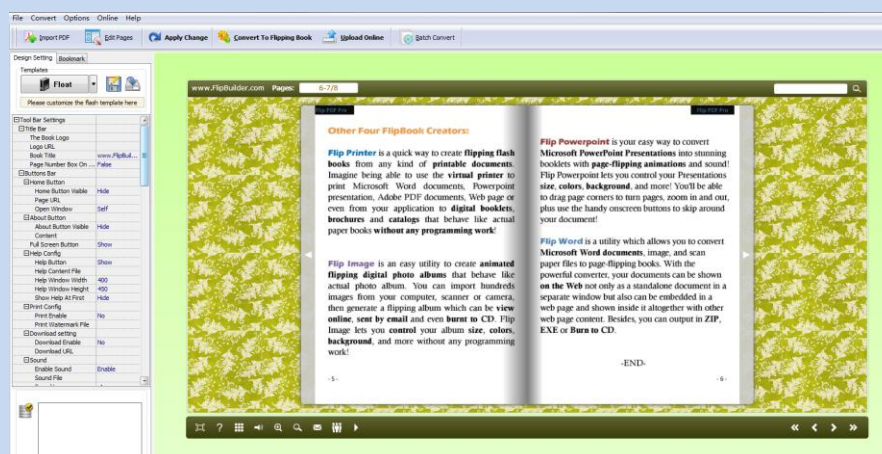

If you want to use the same link, video, audio, image or button on all pages (or all odd, even pages, or your customized pages), you can select the object and then click the Apply All button , then define the apply page range in pop-up window like below:

After adding links, flash, movie or sounds, you can click the icon  to save the settings and back to the template setting interface.

At last, click  icon to apply the settings.
