PDF TO FLASH BROCHURE PRO

Embed Flash Brochure with rich multimedia

About PDF to Flash Brochure Pro

PDF to Flash Brochure Pro is the professional version of the original PDF to Flash Brochure Pro. This professional version does not only include all the features of the original version, but with more powerful functions to make more outstanding and interactive virtual flipbooks. Empowered with the "Edit Pages" function, PDF to Flash Brochure Pro enables you to design and decorate every single page with multimedia and other new applications. You can embed video, audio, flash, YouTube video, image albums; add page link, web link, e-mail link. And you can also automate the interactive flash brochure conversion in command line mode.

Note: This product is distributed on a "Try before-you-buy" basis. All features described in this documentation are enabled. The registered version doesn't insert a watermark in your generated page-flipping eBooks.

Product features

➤ Easy steps to import and output:

1. Convert PDF files to 3D virtual flash brochure with page flip effect;
2. Select PDF from the source files;
3. Open the PDF file before importing to make sure if it's the one you want to convert;

1) Render Engine

Click "Options" → "Application Options" to enter into the below interface

Select a render engine for the conversion:

SWF: Much legible characters, smaller output size;

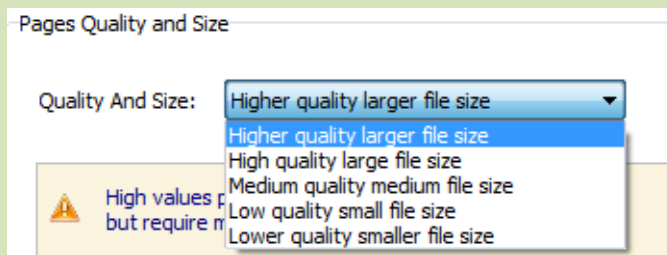

GPL Ghostscript: Higher color transfer quality;

Inner Library: Faster convert speed.

(Change option when PDF imported failed)

2) Create Mobile Version

(1) Five types of page quality and size

(2) Mobile template name

This program provides two mobile template modes: Slide and Single Page Flip.

You can choose you favorite mode.

➤ Output Settings

After all settings are done, click "Apply Change" to save settings. Then you can

publish the flipbook. Click

icon to convert the

PDF to flipbook and the output option interface will show up.

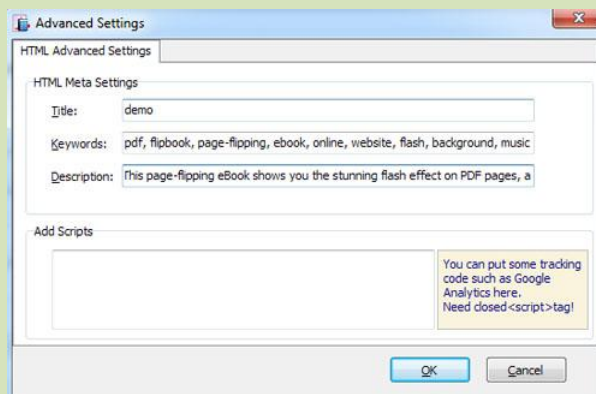

1. HTML

This output type is for uploading created page-flipping eBook onto websites. You can define HTML Title and other properties by clicking "Advanced" button:

Set Keywords, Description or even Script in the below interface:

2. ZIP

This output type is for compressing the created files into an integral ZIP package which can be sending out as attachment directly. You can also define HTML Advanced Settings by clicking "Advanced" icon. Your recipients just need to uncompress the ZIP file and then they can view the HTML flipbook

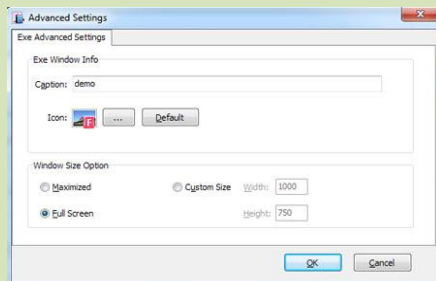

3. EXE

This type is for outputting flipbook as a single executive file, easy storing and easy viewing:

You can also define Icon and Opening Window Size in Advanced Settings:

4. APP

If you want to make executable application to run on Mac devices, you can output as "*.app" format.

5. Mobile Version

You can even output Mobile Version while choosing HTML or ZIP format at the same time. After creating mobile versions, you just need to output all files online (including HTML, SWF, "files" and "mobile" folders), then you can visit the flipbook page through your mobile browser.

6. Burn to CD

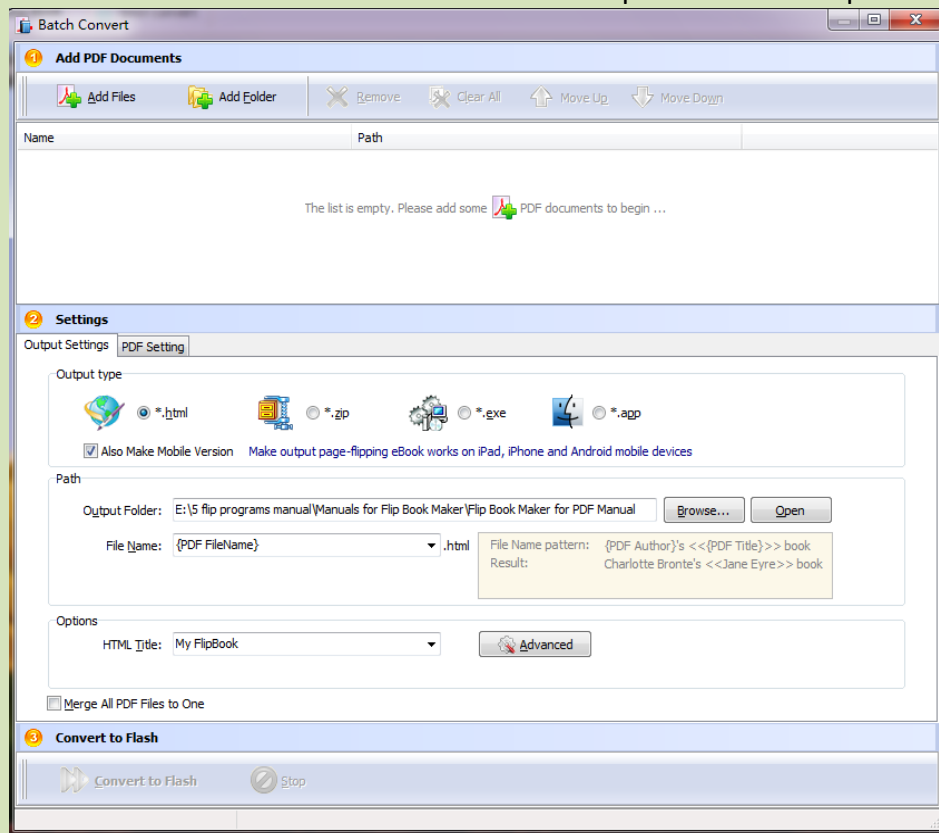

After choosing output type, then check the option "Burn to CD", set "CD Writer", define "Disc title".

➤ Batch Convert Mode

Click  to batch convert multiple PDF files to flipbook

1. Click  to add two or more PDF files;
2. Click  to import PDF files from the folder;
3. Choose output format and define output settings as the above mentioned.

➤ Command Line Mode

PDF to Flash Brochure Pro also provide another conversion mode—Command line mode, which can automate the conversion, and in this way, you can also publish an interactive virtual flipbook with impressive page flip effect.

See below the command line mode:

PDF to Flash Brochure Pro Command Line Usage:

PTCMD.exe [Options]

- f<PDF File> The source PDF file.
